

DOC NO  
REC'D/FILED

2015 APR 15 AM 10:51

PETER OPPENEER  
CLERK US DIST COURT  
WD OF WI

To: The Honorable Judge William Conley

From: Edward Max Lewis

Date: 14-12-15

Re: 14-cv-446-wmc

Dear Honorable Judge Conley,

I don't understand your order in my case. I am in a mental hospital because I tried to kill myself again. I can keep my head together for easy stuff but my brain stops for hard stuff. I can think if I chase my thoughts away with pain but I can only do that if I scratch and cut myself or pull my tie marks out. I am trying to get better but I lose control by thinking too hard. I pulled all my toe nails out and my eye brows so I can think about this but it's tough to stay focused. I think someone said I need to ask you to reconsider but I have to pay him and go get case law. I am still fighting my appeal but I want to rest because I keep fighting because I should not be here. I want to die again but this place won't let me. I asked if someone could help me who helped me in passed but I was

told no so I might have to pay someone again.  
I have good days and bad days but I don't have  
a typewriter or help now. Will you give me  
an attorney or more time to ask you to  
reconsider? I can do it with time I think.  
I am back at the place I went to get  
better before. Maybe if you give me an order  
I can get help from Dan Marsh who helped  
me before. He lives on another unit and  
helped me with my first appeal but this place  
won't let him because we don't have library  
together. They won't let me use the computer  
either. I don't have a copy of what I sent  
you either. Can I have one sent to me so I  
can use the complaint? Please help me  
because I need help and you keep using these  
crazy times against me. I can't be smart all  
the time. I am sorry but please help me.  
I only have a few months left in prison. I  
can't leave like this. I just need to be heard.  
I need to appeal something  
Begging

Edward Max Lewis
